DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Applicant's claimed subject matter is allowable because the prior art fail to disclose or make obvious a method or apparatus for measuring the optical parameters of a phase object wherein the first and second gratings are parallel to each other and positioned between the light source and the phase object and in combination with the other limitations. The positioning of the gratings allows the optical properties of interest such as the power of the lens, are linearly related to certain quantities derivable from the moiré' pattern, and that the proportionality coefficient of the linear relation is a constant depending on the geometrical features of the arrangement which can not be anticipated by the disclosed prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Stafira whose telephone number is 571-272-2430. The examiner can normally be reached on 4/10 Schedule Mon.-Thurs..
